

## The Triplets

Tiny white sneakers like bumper cars, mint green double horned hats knit with pom-poms and pearl pink puffy jackets. The three begin their descent holding onto the railing one at a time: the first, face front, head first. The second- face back, butt first. The third holds back, waiting for help.

They stay huddling on the sidewalk in a cluster when told to wait, buffered by their jackets, the car on and ajar, blinking at each other and everything else.
